## Profile

---

Devoted recently graduated interaction designer who wants to develop my competence and start a career in UX/UI.

## Education

---

- 2014 – 2017 Kristiansand Katedralskole Gimle**  
Upper secondary school, elective subjects in IT and economics.
- 2018 – 2021 Universitetet of Oslo, Department of Informatics**  
Bachelor in Informatics: Design, use and interaction.  
I have taken classes in programming, UX-design, human-computer interaction, cybersecurity, databases, testing and psychology.

## Experience

---

- May 2016 - now Retail clerk, Rema 1000 Vågsbygd (Kristiansand)**  
At Rema 1000 I have gotten experience with structuring workdays with many parallel tasks, customer care and responsibility.
- Semester-project** During the spring semester of 2019, my group and I completed a design project with focus on user-centered design, where we developed a prototype for a physical quiz-game based on the arduino platform ([IN1060](#)).
- Semester-project** During spring 2020, my group developed a complete android-app with functionality linked to Metrologisk Institutt and NVE's APIs. I have since redesigned this project, which I have written about [here](#).

## Skills

---

- Interaction design** Through my studies and in my free time I have completed multiple design projects. I am interested in both UX and UI, and I am continuously learning and developing my skills in both fields. I publish some of my work in my [portfolio](#).
- Programming** Through my studies I have written Python, Java, Kotlin and SQL. In my free time I have written front-end languages like HTML, CSS and Javascript. I also have experience using website builders like Webflow.
